## Description

A fuel economy, synthetic motor oil, developed according the most recent technology, based on specially selected synthetic base oils and a well balanced choice of advanced additives to obtain the following properties:

- lower fuel consumption
- reduced formation of combustion residues (mid SAPS)
- a very fast cold start
- a safe lubrication film at high temperatures
- extended oil drain intervals
- a very good detergency and dispersion
- a very strong protection against wear, corrosion and foaming

## Application

This fuel economy, specially composed motor oil, is recommended for use in petrol engines, with or without turbo-charging, in passenger cars and delivery vans with extended oil drain intervals. This motor oil also contributes to the extension of the lifetime of particle filters.

## Specification

### Performance level:

ACEA A1/B1

API SN

Meets the requirements of:

Jaguar Land Rover STJLR.03.5004

## Typical Characteristics

0W20 SN		
Property	Unit	Typical Values
Density at 15 °C	kg/l	0.85
Viscosity -15 °C	mPa.s	6200
Viscosity 40 °C	mm <sup>2</sup> /s	40
Viscosity 100 °C	mm <sup>2</sup> /s	7.5
Viscosity Index		158
Flash Point COC	°C	230
Pour Point	°C	-45
Total Base Number	mgKOH/g	9
Sulphate Ash	%	0.78

The data mentioned in this product information sheet are meant to enable the reader to orient himself about the properties and possible applications of our products. Although this overview is composed with all possible carefulness on the stated date, the composer does not accept any liability for damages caused by incompleteness and/or inaccuracies in this information, especially when these are caused by obvious typing errors. The terms of delivery of the supplier apply to all product supplies. The reader is advised, especially for critical applications, to make the final product-choice in consultation with the supplier. Due to continual product research and development, the information contained herein is subject to changes without notification.
